### Perfect media experience – read, listen and watch with all the senses

The toline app opens the door to an endless media library with a huge selection of e-books, videos and millions of songs. You can make your selection, purchase and manage your content quickly and conveniently, and use the side loading feature to load your own media onto the toline tab.

### Intelligent reading experience

The toline tab 8" offers XL reading pleasure. Because it supports ePub3, it can display multimedia e-books with audio and video content, such as children's books and interactive travel guides.

### Outstanding technology, lean design

Full sharpness and brilliance thanks to a higher resolution than with a full HD display and an integrated front camera. And the tablet is pleasant to handle with a sophisticated design.

### Open system for endless possibilities

With the toline tab 8", you can decide for yourself from which provider you want to buy, download or use something.
